ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Encore Business System Limited** as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

Notes to financial statements for the year ended March 31, 2018

(All amounts are in Indian Rupees, except share data or as stated)

Significant accounting policies and notes to the financial statements

1 Company Background

Encore is currently in the business of software development, software testing, training and related services.

2 Significant Accounting Policies

a Basis of preparation of financial statements

The financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting in accordance with the generally accepted accounting principles ('GAAP') in India and comply with the Accounting Standards notified by the Central Government pursuant to Companies (Accounting Standard) Rules, 2006, other pronouncements of the Institute of Chartered Accountants of India (ICAI) and relevant provisions of the Companies Act, 2013, to the extent applicable.

Presentation and disclosure of financial statements

During the year ended March 31, 2018, the revised schedule II notified under the Companies Act, 2013 has become applicable to the Company, for preparation and presentation of its financial statements. Except accounting for dividend on investments in subsidiary companies, the revised schedule II does not impact recognition and measurement principles followed for preparation of financial statements. However, it has significant impact on presentation and disclosures made in the financial statements. The Company has also reclassified the previous year figures in accordance with the requirements applicable in the current year.

Change in accounting policy

There is no change in accounting policy.

b Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period reported. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in the current and future periods.

c Fixed assets, depreciation and capital work in progress

Tangible assets and depreciation

Fixed assets are stated at cost of acquisition, less accumulated depreciation. Cost of acquisition of fixed assets is inclusive of all incidental expenses relating to cost of acquisition and the cost of installation / erection as applicable. Borrowing cost related to acquisition or construction of those fixed asset which necessarily take a substantially period of time to get ready for their intended use are capitalised.

Depreciation on fixed assets is provided on Straight line method. The rates of depreciation prescribed in Schedule II to the Companies Act, 2013 are considered as the minimum rates. If the management's estimates of the useful life of a fixed asset at the time of acquisition of the asset or of the remaining useful life on a subsequent review is shorter than that envisaged in the aforesaid Schedule, depreciation is provided at a higher rate based on the management estimate of useful life/ remaining useful life.

Intangible assets and amortization

Intangible assets are recorded at the consideration paid for acquisition. Intangible assets are amortized over their estimated economic useful lives on a straight line basis commencing from the date the asset is available for its use.

d Inventories

Inventories are valued at the lower of cost and net realizable value.

Cost of inventories comprises all cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost includes all taxes and duties, but excludes duties and taxes that are subsequently recoverable from tax authorities.

e Leases

Operating lease payments are recognised as an expense in the statement of profit and loss account on straight line basis over the lease term.

f Revenue recognition

Income from Training Services is accounted when the relevant services are rendered and is net of discounts and taxes and Income from Sale of Software is accounted on transfer of ownership

g Investments

Long term investments are stated at cost and provisions recorded to recognize any decline, other than temporary, in the carrying value of each investment.

Current investments are stated at lower of cost and fair value. The comparison of cost and fair value is done separately in respect of each category of investments.

h Employee benefit

Defined contribution plan

At present the company has no obligation to provide for contribution towards PF/ ESI and gratuity

i Foreign currency transactions

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of the transactions or rates that approximates the exchange rate prevailing at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies as at the balance sheet date are translated at the closing exchange rates on that date. Exchange differences arising on foreign exchange transactions during the year and on restatement of monetary assets and liabilities are recognized in the statement of profit and loss account of the year.

j Provisions, contingent liabilities and contingent assets

The Company creates a provision when there is present obligation as a result of past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent assets are neither recognised nor disclosed in the financial statements.

k Taxation

Income tax expenses comprise current tax (i.e. amount of income tax for the year determined in accordance with the Income Tax law) and deferred tax charge or credit (reflecting the tax effects of the timing differences between the accounting income / expense and taxable income / expense for the year). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantially enacted by the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty of the assets getting realised in future. However, where there is unabsorbed depreciation or carry forward of losses under taxation laws, deferred tax assets are recognized only if there is virtual certainty of realization of such assets. Deferred tax assets are reviewed at each balance sheet date and written down or written up to reflect the amount that is reasonable / virtually certain (as the case may be) to be realised.

Current tax and deferred tax assets and liabilities are offset to the extent to which the Company has a legally enforceable right to setoff and they relate to taxes on income levied by the same governing taxation laws.

l Earnings per share

Basic earnings per share is computed by dividing net profit or loss for the period attributable to equity shareholders by the weighted average number of shares outstanding during the year. Diluted earnings per share amounts are computed after adjusting the effects of all dilutive potential equity shares. The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share, and also the weighted average number of equity shares, which could have been issued on the conversion of all dilutive potential shares. The diluted potential equity shares are adjusted for the proceeds receivable, had the shares been actually issued at fair value (i.e. the average market value of the outstanding shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

m Impairment policy

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Company estimates the recoverable amount (higher of net realizable value and value in use) of the asset. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than the carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss account. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost.

n Cash flows

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, financing and investing activities of the Company are segregated. Cash flows in foreign currencies are accounted at average monthly exchange rates that approximate the actual rates of exchange prevailing at the dates of the transactions.
